

SECTION SEVEN

SUMMARY

As referenced in the clinical studies and laboratory documentation provided in Section Six, Zeaxanthin Purified Concentrate from marigold food, is a well characterized dietary ingredient that has been available in the marketplace and successfully used for good health for some time.

The level of use for Zeaxanthin Purified Concentrate from marigold for adults only will be at a level of 3 mg per day.

Based on the long history of use in food and laboratory safety studies identified in Section Six, the manufacturer and distributor of Zeaxanthin Purified Concentrate from marigold considers their documentation sufficient to provide a reasonable basis for Zeaxanthin Purified Concentrate from marigold being considered safe for use.
